## Delegate Battle in Area Is Heating Up

The crowded field for election as Democratic national convention delegates in the 23rd Congressional District has presented backers of U. S. Senator Edmund S. Muskie of Maine with a delicate problem — one that is causing the March 21 ballot battle to begin heating up.

In most cases the "regular organization" of officials in precinct workers is supporting delegate candidates listed as "uncommitted."

Most of these say they favor Sen. Muskie, but they are opposed by other candidates listed on the ballot as committed to Muskie.

Muskie's helpers do not want to alienate the "regulars," particularly regulars who might win on March 21. But they are trying to defeat them because of the national media impact if a number of officials by uncommitted candidates win.

A campaign aide told the Press-Record during a visit here Friday that, unless Sen. Muskie can stake out a clear victory in the Illinois primary, it will be interpreted throughout

the U. S. as a serious stumble in what he hopes is a march to the presidency.

In the Madison County part of the 23rd District, uncommitted candidates are Charles L. Hester, Granite City, Buddy W. Davis, Wood River, Steve Marquides, Madison, and Gene H. Graves and Kurt W. Engbrecht, both of Edwardsville.

Muskie candidates are Mrs. Lillian Singer, Pontoon Beach area, H. Carl Runge, Arlington Heights, Rudolph Papa, Beloit, and Samuel Clipson, Edwardsville.

In a two-way confrontation, the latter group — although not actively anti-organization — might benefit from Democratic voters who normally oppose "regular" candidates.

But many of the "anti" voters are supporting delegate candidates committed to Senator George McGovern of South Dakota — Richard Allen, Granite City, Dick H. Mikes, Edwardsville, and Mrs. Carmen Delist Kerr, Beloit.

A factor in the delegate battle may be an organizational split over candidates for the

Madison County recorder of deeds nomination.

The County Democratic Central Committee and the AFL-CIO Committee on Political Education (headed by United Steelworkers agent and uncommitted delegate candidate Buddy Davis) — are supporting for recorder Maryvonne Mayor Ronald Lucas.

But some influential Democrats, including Granite City Supervisor (and County Board Chairman) Nelson Hagmann, are backing Harold Von Dee Cruse, former Granite City assessor, for the recorder of deeds office.

The Muskie organizer here Friday included Cruse associates on the list of people he planned to contact.

## Leap Year Students To Graduate 'Early'

Two seniors at Southern Illinois University-Southwestern will graduate at an early age — one at the age of six and one at age seven. They didn't get a "leap year" — they're leap year babies.

A check of students registered for winter quarter at SIU-SW shows 11 students born on Feb. 29. Two were born in 1936; one in 1944; four in 1958, and four in 1962.

Lynda Marie Knebel of Collinsville was born Feb. 29, 1948, and will graduate from SIU-SW in June.

It is usually celebrated at midnight on the 28th. That way it's between the two days," she said. The other June graduate, Bonita Jackson of Lebanon, will graduate when she is seven. She was born in 1944.

Another leap year baby is Lane Langsdorf of East St. Louis. Mrs. Langsdorf has a blind vision of the event: "I just get a little older."

Others include: Ken Edan McFarling, Collinsville; Robert Thomas Benner, Jerseyville; Allan Kent Haemel, Mount Olive; Ricky L. Turner, Granite City; William J. Welland, Edwardsville; Steve Lynn Lewis, Madison; Kenneth G. Mauk, St. Peters, Mo., and Beverly Kay Seltzer, St. Louis.

## RETURNS FROM VACATION

There is no Mrs. Charles Adams, contrary to a news article published Thursday, nor is there such an address as the one given. Mr. Adams, of 2408 State St., returned here a week ago from a vacation at Hot Springs, Ark.

## 4 DAYS WITHOUT A QUAD-CITY TRAFFIC FATALITY

The last quad-city traffic fatality occurred on Feb. 23, 1972.

At the conclusion of the service, a fellowship fund will be held at the host church.

ARCHITECT'S DRAWING OF 120-bed nursing home which is to be built in Granite City this year by a Springfield, Ill., investment firm. The one-story, brick and block structure will cost an

estimated \$1.3 million and will be located on Stearns Avenue just south of Pontoon Road.

## Extensive University Cooperation Between 2 States Is Proposed

Illinois is "thoroughly committed" to interstate cooperation in higher education that will cut across state boundaries, James Holderman, executive director of the state Board of Higher Education, said Saturday in a speech at SIU-SW.

Holderman was speaking to the Higher Education Council, a group of educational administrators and laymen from the bi-state St. Louis area.

A higher education consortium between Illinois and Iowa public and private universities in Rock Island-Moline, Ill., and Davenport-Bettendorf, Ia., could provide a model for Illinois-Missouri cooperation, Holderman noted.

He said there is a possibility of the Illinois General Assembly someday allocating funds to make up tuition differentials so that Illinois public university students could attend more expensive universities in St. Louis is to take specific courses.

The move for interstate cooperation will coincide with the Board of Higher Education trying to implement intrastate cooperation under the guidelines of Master Plan Phase III: one of the aims of Phase III is the establishment of a collegiate common market in Illinois, Holderman said.

"We must move ahead with new kinds of delivery patterns for the '70s," Holderman commented.

He said a Board of Higher Education task force on implementation of a collegiate common market is expected to report on the structure, programs and delivery systems of the common market in several months.

"There is a general feeling among universities that what is theirs is theirs alone," Holderman said. "We're not out to take away autonomy; we don't want every university to be like everyone else. The collegiate common market will mean autonomy, not sameness."

He added that one of the guidelines being used by the task force is that each institution should have "special missions," a departure from the notion "that each university should be all things to all men."

The task force is investigating

setting up regional clearing-houses for higher education and nine larger regional councils which would coordinate the public and private sector in the sharing of research and library facilities, establish cooperative admission and financial aid programs, work out identical academic year calendars and perform other functions, Holderman said.

He said universities in metropolitan areas would have a high priority on state resources for higher education.

Master Plan Phase III says of Southern Illinois University-Southwestern:

"Although it does not offer any doctoral degrees, it is in a major (Illinois) metropolitan area which, latest studies reveal, has a population of about 500,000."

"The area offers a great opportunity for urban-related programs, particularly social science programs, which are problem-oriented and are related specifically to that geographic area and to like geographic areas."

Holderman said changes in higher education must be done within the budgetary constraints of the state.

He said higher education will get approximately \$8 million more for fiscal year 1973 than it received this fiscal year, but requests for new programs and buildings at state universities totaled many times the increased allocation.

"Therefore, priorities have to be decided upon," Holderman said. "The Board of Higher Education doesn't accept the thinking that all current programs have higher priorities than programs proposed to us for the first time."

## Classrooms Ransacked

Two portable classrooms at Washington School were ransacked by two girls and a boy who were spotted leaving the scene, it was reported at 3:15 p.m. Sunday. Entry was gained by breaking the door glass.

## Woman Cut With Knife

Mrs. Juanita Manning, 48, of 1234 Iowa St., Madison, suffered two lacerations when she was cut with a knife at her home at 9:50 p.m. yesterday. She was taken to St. Elizabeth Hospital where a one-inch laceration to her left index finger and a one-quarter inch laceration to her upper right arm were sutured. She was released.

## New Nursing Home To Have 120 Beds

A 120-bed nursing home providing all levels of nursing care for the elderly will be built in Granite City this year at an estimated cost of \$1.3 million, it was announced today.

The brick and block structure will be located on a 4.5-acre tract on Stearns Avenue just south of Pontoon Road.

The project has been developed by the National Investors & Finance Co. of Springfield, Mo., and Michael McGee, executive development director for the investment firm. The tract is located

in an R-5 Multiple Dwelling district so that no rezoning will be required.

Hauck said the nursing home will be operated by Colonial Haven Nursing Home, Inc., of Granite City, a new corporation for which a state charter is to be issued early this week.

Construction will get under way as soon as detailed building plans are completed by the architects, hopefully in early spring, Hauck said. A target date for opening has been set for Jan. 1, 1973.

The nursing home will have 28,000 square feet of floor space and will be of fire resistant

construction with gas and electric heating and air conditioning throughout, Hauck announced.

It will include space for physical and occupational therapy and will provide lounge and recreational areas and complete laundry and kitchen facilities.

The investment firm also operates four developments in California — two shelter homes and two motels — and now is constructing three motels and shopping centers in Illinois. Four other projects are being developed in Montana, Hauck said.

## Hoelscher Retiring as Officer of GC Steel

Wilfred F. "Bib" Hoelscher will retire as vice-president of Granite City Steel Co. effective March 1, after 25 years with the company, it was announced today.

Hoelscher, who came to Granite City Steel in 1947 as assistant treasurer, is 62 years old. A native of Granite City, he graduated from the School of Business Administration of the University of Illinois in 1935 and was with Price Waterhouse & Co. prior to joining Granite City Steel.

## World Day of Prayer Observance on Friday

"All Joy Be Yours" is the chosen theme this year for the Church Women United's World Day of Prayer celebration Friday evening, March 3.

Mrs. Robert Kettelhut and her committee, Mrs. Ruth Kabureck, Mrs. Fred Rupp and Mrs. Leonard Rupp, have completed plans for the service, which is to be held at St. Peter's Evangelical United Church, 21st Street and Cleveland Blvd.

Registration will be held from 7 to 7:30, with the program beginning at 7:30.

Opening the celebration will be a procession of "Joy" banners, made by women from

various churches. This will be followed by choral readings presented by groups from Sacred Heart and St. Peter's churches.

Christine Putz, a young minister from Germany who is currently spending a two-year period of study in the United States, will be the featured speaker.

The musical portion of the program will be presented by "The Windows," a group from the Third Baptist Church, and several organ selections will be interspersed throughout the evening.

At the conclusion of the service, a fellowship fund will be held at the host church.

## Tax Stand—a Stumble in Simon's Governor Race?

By KEN WATSON

Copy New Service  
Springfield — Is Paul Simon losing his chance for amazing governorship election victories in March and November?

Some Statehouse Democrats are beginning to worry that he is.

At this stage, the lieutenant governor still rates as a favorite to turn back the challenger walking Dan Walker in the March 21 gubernatorial primary and then go on to unseat Republican incumbent Richard B. Ogilvie on Nov. 7.

But what is significant is that he is not as big a favorite as he used to be. The situation has been changing—and at a quickening pace in the last two or three weeks.

Beneath the Capitol Dome, an increasing number of regular organization members are now leery that Walker may make the primary much closer than originally anticipated and, worse, that the fall outcome is no longer certain.

At the Springfield-Statehouse political circuit, one now encounters an increasing number of political participants and watchers who believe that Ogilvie will win a second term, after all. Only a few weeks ago such people were virtually nonexistent.

Most of those now predicting an Ogilvie comeback are Democrats. What has happened?

The big factor most frequently cited is Simon's new stand on the tax issue. He made headlines all over Illinois by coming out for an increase in the state income tax.

The fact that he tied this in with a proposed total revamping of the Illinois taxing system—which would include elimination of some taxes, including the personal property tax—was pretty much lost in the shuffle.

The strategy bombshell has mystified regular Democrats and has many throwing up their hands at the prospect of losing anticipated patronage jobs.

Democrats have figured all along that the onus of the income tax was in itself enough to assure Ogilvie's defeat, and that Simon would leave the matter quietly alone. By his own maneuvers, Simon has not only lifted the income tax burden from Ogilvie's po-

litical back, but has enabled the governor to use it as a weapon in asserting that he will not raise the tax while in office.

Despite the inevitable claims from the Simon camp that this is pure campaign oratory, more serious students of state government believe Ogilvie may well be on firm ground.

Regardless of how one may view the issue, the prospect is growing everyday that state governments in the next few years are going to receive some massive financial help from Washington — probably through the shifting of the welfare burden to Washington and huge money grants for the schools.

These anticipated developments, coupled with a hoped-for revival of business prosperity and a resulting boost in state tax revenues, would probably save the Illinois financial situation on a short-term basis, at least, and make no further tax increases necessary.

Nervousness in the Simon camp has apparently influenced him to attempt to grab the statesman's cloak from Ogilvie, but the lieutenant governor may have stumbled in so trying.

## Robbers Hit Kroger, Two Other Area Firms

Armed robbers took an undisclosed amount of money from two firms in Granite City during the weekend and robbed a Madison store of \$309 in a daylight holdup Thursday afternoon.

Two men who indicated they had guns in their pockets robbed the Kroger Store of an undetermined amount of money. It was reported at 7:45 p.m. Saturday.

Tom Wuerst, store manager, told police that one of the men was at the express lane entrance of the office and stated, "This is a stickup, give me all your money."

An office clerk was reluctant and began stalling, but the second man, standing at the other office entrance, ordered, "Put the money in a bag. We mean business."

The amount of money stolen was not disclosed.

After the robbers obtained some money, two women clerks and Wuerst were forced to lie on the floor.

James Robbers  
One of the bandits was described as being 35 to 38 years old, 5 feet, 8 inches tall, with

long hair, and wearing a long black jacket, violet shirt, blue trousers and black shoes. The other was described as being 35 to 38 years old, 5 feet, 11 inches tall, with short reddish brown hair and wearing a sport shirt.

Two armed bandits victimized Dayton Loyd, an attendant at Clark's Service Station, N. Mumfords Road and Washington Avenue, at 4:10 a.m. Saturday.

Loyd, who later flagged down a passing patrolman, told police that two men in a 1958 or 1960 auto came to the station, and one showed a .45 caliber automatic pistol into his stomach. He was pushed into the back of the station.

One of the robbers took his money changer while the other took money from the safe. One man was described as being 6 feet, 1 inch tall, slim, 180 pounds, with blondish brown hair, brown eyes and wearing a black trench coat. The other was not seen by the attendant.

The hearing has been called by the Board of Local Improvements which will determine the property to be included within the mall and extend special assessments for financing the project.

**Hudson Jewelers**  
Granite City and Edwardsville

Betty Ross was born in Philadelphia on January 1, 1922. She married John Ross, whose uncle George Ross was one of the signers of the Declaration of Independence. The Rosses had a small photography shop on Arch Street, in Philadelphia.

When General Washington needed a flag for our brand new republic, General George Ross, one of Washington's aides, suggested that his nephew's wife, Betty, could probably do the job. They brought a rough sketch of the stars and stripes to Betty Ross. She told them that she was certain she could do it. She had some suggestions for changes in the design and another rough sketch was prepared, according to her suggestions. She then made a large and beautiful flag — our first Old Glory!

Great chapters of American history have been written since the time of Betty Ross. America has prospered and somewhere along the line, Hudson's was established. Hudson's has grown, too, and stands today as one of Granite City's leading jewelers. But there is something really special to learn just about all there is to know about Wedding Plans and Proper Wedding Procedure.

## MORE ABOUT

### Robbers

took \$300 from the proprietors of the American Sales Dollar Store, 314 State St., Madison, at 3:10 p.m. Thursday.

W. D. Harrison told police he and his wife were working at the store when two young men, about 23 years of age, entered and looked at some slacks. One of the men walked to the front counter where Mrs. Harrison was talking on the telephone.

He displayed a .35 caliber chrome-plated pistol, similar to one stolen in a robbery of Motor Service Station on Route 203 last week and told Mrs. Harrison, "Keep talking on the phone. All we want is the money." Harrison related.

The other robber also displayed a revolver, aiming it at Harrison, he reported. Two customers in the store, Nina Prossell and Marcell Wilson, saw the guns and started to walk away until the gunmen told them to get back. Harrison stated.

One man then reached in the register, took the money and told the four, "Get in back and don't look at us." When they were in the back room, the men police were told.

Both men were black robbers at the Moto station and Chamberlain's, Confectionery, 216 Broadway Drive, Feb. 25, Madison Avenue, which also was robbed last week.

## William Schooley Resigns Pontoon Beach Legal Post

William Schooley, attorney for Pontoon Beach, presented his resignation to the village board at its Thursday night meeting, effective as soon as the board can obtain new legal counsel.

Schooley has served as the board's attorney six years. Under his present contract he receives \$300 per year for his services.

In his letter of resignation, Schooley said increased demands of his private practice conflict with the expansion of the village and its legal needs. The resignation was "accepted with regrets" by the trustees.

The board also appointed Julius Gilliam, 34 Victoria Drive, to a six-year term on the village zoning board. He replaced a member who was appointed but declined to serve. Gilliam is a general foreman with A. G. Smith Corp.

The trustees, on recommendation of the zoning board, denied a request by Houser Auto Parts for a permit to construct a 10 foot by six foot business sign, larger than permitted by the zoning ordinance.

The suit was filed by Edgar Patrick, Nameoki town collector and a candidate for nomination as a county-board member in the Feb. 8 primary election. He charged that an election judge had solicited votes in the polling place for Louis Whitsett, incumbent township supervisor and Patrick's opponent for the Democratic nomination.

The only person to testify at a hearing opened Friday afternoon was Mrs. Lida Thies, wife of a Granite City physician, who testified that no attempt was made by any election judge to influence voting for Whitsett. Following her testimony, Patrick's attorney announced that the case was being dropped against Whitsett.

Whitsett won the Feb. 8 District 26 Friday by the narrow margin of 640 to 618, in the District 26 election.

A second contest hearing scheduled Friday, filed by Walter Sparks, Chouteau township supervisor, against Alex E. Doerr of South Roxana, was continued one week and rescheduled for Friday. Mrs. Lorraine Clancy of Cl-

cer, Eagles Auxiliary state president, accompanied by several state officers, will witness the induction rituals, Mrs. Mullen said.

A pot luck supper will take place Saturday evening for members and guests, followed by entertainment by the Eagles Auxiliary Band. Breakfast will be served Sunday morning to the honored guests at the Aerie Home. The initiation meeting will take place at 1 p.m. Sunday, with a luncheon to conclude the festivities.

Tickets still are available for a "state project dance," to take place Saturday, March 11 at the Aerie Home. The Key Notes will play for dancing from 9 p.m. to 1 a.m. and a late buffet supper will be served, Mrs. Hall announced. Mrs. Bernice Johannigmer gave a report on members who are ill, and a meeting of the Kitchen Band was called for 7 p.m. Tuesday.

Mrs. Mullen reminded the women to complete their "Easter bonnets" for the annual hat parade set in late March. A small entry fee is charged the participants with proceeds donated to the Cancer Fund.

Prizes will be awarded to those displaying the funniest and the prettiest chapeaux, the officer said.

A fish fry to aid the youth guidance project has been scheduled March 17, with donations of cakes and pies sought, Mrs. Brenda Rickert announced. Mrs. Vera Hornyak, heart fund chairman, said a

sandwich shop operated on Sunday evenings at the Eagles club is proving successful. Mrs. Bille Schuler won the special prize at last week's meeting, with Mrs. Mary Corey receiving the "white elephant" gift donated by Mrs. Deloris Sanders. Hostesses were Mrs. Schuler and Mrs. Rickert.

## Madison's Gary Lusk Proves Little Man Has It at Iowa

Take it from a good little man, there will always be room for the good little man in major college basketball.

"I think a guy my size will always have a chance in this game," says Iowa's Gary Lusk, former Madison High school star, a 5-10 huster with deceptive moves and a strange left-handed pop shot. Lusk is one of only four players under six feet tall in the Big Ten who consistently sees game action.

Three will be matched up at East Lansing, Mich., Saturday. Lusk will be on the floor with Michigan State's 5-11 Mike Robinson and 5-8 Gary Gankas for the opening tipoff. It will be Lusk's first starting assignment since the Nebraska game, Dec. 21.

"Being small doesn't hurt a small man on offense," says Iowa's 5-10 guard, who hit a

season high of 22 points in a victory over Ohio State a couple of weeks ago. "In fact, it can be an advantage if you're covered by someone who is bigger but slower."

"But defense is something else. The little man has to rely on quickness and speed, and he's got to work hard. It's hard enough for a 5-10 guy like me. It must really be tough for someone as small as Gary Gankas."

Big opponents obviously do not bother Lusk, who enjoys penetrating a defense of tall players — many a foot taller than he — and launching his peculiar pop shot.

"I like to shoot in a crowd, all right," says Gary. "I'm a little more relaxed when I get bumped around. I try to make a move or two, then get rid of the ball quick. It doesn't bother me to get a shot blocked, but that doesn't happen often."

Lusk had the best scoring night of his career against Indiana last season. He repeatedly moved inside against the Hoosiers' awesome front line to score 26 points.

Gary admits there was a time when he didn't play much defense and consequently he wasn't playing much, period. "In high school I saved all my energy for offense. But I found out you don't play much here if you don't hustle on defense."

Lusk, who plans to coach and teach in high school after graduation, sees brighter days ahead for the Hawkeyes. "This team has a lot of underclassmen with the ability to put it together next year. It's going to be tough, though, because most of the good players in the Big Ten are underclassmen. But the ability is there. If the team can get some breaks and build up momentum, those are the things we had going when we won the title two years ago."

**Named Cage Refs**  
Keith Parker and Russell Chappell of Granite City have been named officials of Class A sectional basketball tournaments being held this week. Chappell will be at Vandalia and at Eldorado.

## Warriors Trounce Cahokia, To Host Regional This Week

An 82-59 trouncing of Cahokia gave Granite City High School's basketball team a successful note as the local Warriors ended their regular season with a 17-6 record.

GCIS hosts a Class AA Regional Tournament this week and will swing back into action at 7:30 p.m. Tuesday against the winner of the Highland-Roxana game tonight. Another victory then would move the Warriors into the championship game at 7:30 p.m. Friday.

Cahokia got the Friday game off to a tough start and led the Warriors at the end of the first quarter 18-16. At the half it was still anyone's game. He will remain close to the sidelines this week.

third quarter, scoring only seven points, while GCIS racked up 19. The Warriors again outscored their opponents in the final eight minutes by 30-21.

The local Warriors played without their scoring ace Terry Ripka, who hurt his ankle in the Alton game a week ago. He will remain close to the sidelines this week.

"It was really hard to tell how the game would go without

Ripka in it, but it went well and proved to the rest of the team they are all basketball players in their own right," Coach Don Deitering commented.

"Vrenick (Tom) and Wiggins (Bob) played great ball for us. Wiggins had one of his most productive nights on offense for us. He has always been a good ball handler and fed Terry a lot."

Warrior Wiggins led the Warrior scoring with 20, followed closely by Joe Wallace with 18. Other Warriors scoring were Vrenick 14, Kevin Dyer 9, Rick Prehn and Brett Champion 8 each, and Chuck Kraus 8. The Warriors shot 22 of 31 from the floor 30 to 21 and from the charity line 22 to 17.

Sadley shaking his head, he added, "What we had to do was to get the Warriors to suffer to as many as seven key players at a time early in the season. We prevented us from jelling our line-up. In our last six or seven games where we have been able to use the same starters, we have done much better."

**Damaging Injuries**

The two most damaging injuries were knee operations on Thronberg and Thomas. Thronberg made a rapid recovery, but didn't hit his potential until the last one-fifth of the season. Thomas dropped out of school, but will be back next year.

Biggest plus in an otherwise lackluster season was the sensational play of Tony Johnson, a former Farragut High of Chicago star who came to the Cougars by way of Haledale, Ill.

Karl, Junior College, the sports reporters for the Milwaukee Journal and Sentinel following the team, said that the Cougars' Major Handicap of Wisconsin at Milwaukee a week ago: "Johnson was the most exciting guard we've seen this year." And they've seen plenty of playing against second-ranked Marquette University this season.

**Glimmer of Hope**  
Another glimmer of hope, too, for the future was the signs that 6-8 Steve Hutchison, a sophomore from Hillsboro, was doing well in his first year. Promising, too, was the play of sophomores Frank Ramsey and Jerry Blaudow, and Thronberg (Butch) Ferree and Terry Fray.

Dudley refuses, too, to use the lack of a gym of their own as a reason for the Cougars' turnaround this season. He gives the definite impression that if SIU-SW can field a winning basketball team and win bids to post-season NCAA tournaments, the gym will come. Sam Holmes, who was used sparingly the early going, will be back, too, next year. His play the last month had earned him a starter's berth and regular play had given him the confidence he needed.

There is no doubt, however, that Dudley knows he must be a starter. "That big monster man for under the basket, who can get the ball for us and put the ball in when our outside shooters miss," he says.

In Saturday's final, Blaudow took scoring honors with 24 points and was credited with 12 rebounds. Thronberg and

## Cougars End Season With 92-65 Victory

The 1971-72 basketball season ended on a happy note Saturday night for the Southern Illinois University-Southwestern Cougars of Coach Jim Dudley. With a crushing 92-65 victory over Indiana State University at Evansville.

With one of the very few 8-1 seasons during the frustrating 8-1 season that Dudley had been able to smile, Sunday last season, his first as a four-year college mentor, he had directed the Cougars to their first (18-11) winning year and, with four regulars back, 6-8 Gene Blaudow, 6-4 Jerry Blaudow, 6-3 Ollie Miller, 6-2 Dave James, Dudley couldn't be faulted for believing—and hoping—for a big campaign in 1972-73.

In addition, he'd signed some promising junior college transfers to help out the Cougars. The newcomers: Tony Johnson, Sam Holmes, Charles Mackey, Harold Thomas, Jerry Blaudow and Frank Ramsey.

**Sophomore Season**  
And, moving up from an outstanding sophomore season was Denny Thronberg, who finished in a double-digit for career honors with Rich Essington and Champ Summers.

On the basis of his returning players and incoming junior college transfers, Dudley dropped six of the schools over whom his Cougars had scored victories and added such national NCAA college division powers as Louisiana Tech, Eastern Michigan University and Louisiana State University, New Orleans, to his 1972-73 schedule.

It was calculated game by game. Dudley admits, and adds: "But I thought, with any luck, we'd be able to play at least one of our new terms. I'll take the blame, if there is any, for over-scheduling, but I believe that the basketball being played."

Sadley shaking his head, he added, "What we had to do was to get the Warriors to suffer to as many as seven key players at a time early in the season. We prevented us from jelling our line-up. In our last six or seven games where we have been able to use the same starters, we have done much better."

In Thursday's 74-68 loss to Southern Illinois at Cape Girardeau, the Cougars showed some strength and made a battle of it all the way.

The Cougars held a 64-55 lead in the second half after battling to a 41-41 tie at the intermission at Cape Girardeau, but Cape took advantage of free-throw opportunities and several buckets put the winners ahead with 3:14 left in the game.

SIU-SW outlasted Southeast Missouri 34 to 29 from the field. The Cougars counted on 29 of 37 shots from the charity stripe 30 to 14 for the Cougars.

Johnson took scoring honors with 30 points for SIU-SW, his season high, while Thronberg added 19, Blaudow 8, Ramsey 8, Hutchison 7 and Holmes and Withoff 3 each.

## Warriors 2nd, 6th in State Finals, Wilson Sets Record

Doug Wilson, Granite City High School's 132-pound wrestling wonder, placed second in the state finals Friday and Saturday at Normal and in the process broke the state record for the number of victories in one season.

Warrior Kevin Niebur (120), also earned himself a spot in the state record books, placing sixth in the rugged two-day competition.

The Warriors placed 17th in the tournament, better than their 25th place finish last year. Hersey High School retained the title, winning with 42½ points. East Leyden was second with 31½, Waukegan took third with 28, East Moline was fourth with 25½ and Bloomington took fifth with 22½ points. The Warriors dished out 27-15 in a double day Dec. 4.

Area teams finishing behind Granite City included Belleville East with nine points, Cahokia, East St. Louis and East St. Louis Lincoln with four each and Roxana with one point.

**Sets State Record**  
Wilson won both matches Friday to tie with state record of 42 victories in a season and went on to win his semi-final match Saturday for his 43rd. He lost his first match of the season in the Jacksonville Tournament and went on to win the rest, entering the state finals with a 40-1 record.

He broke the record by out-pointing Jeff Camp of Chilli-cothe, who finished second last year, 5-4. Wilson was fourth in the state last year so his victory over Camp held a special meaning for the warrior.

**Supersens Moe**  
"If he had met anyone other than Brad Smith in the finals, Wilson would have been a state champion," Warrior Coach Bill "Red" Schmitt commented after the tournament.

Smith, the champion in the weight class last year, had won 63 consecutive matches going into the finals and had bulldozed his way through the first three rounds with little trouble, winning by more than 10 points in each bout.

The Hersey star had lost only one match in three years of wrestling and Wilson came about as close as anyone has since that loss.

A capacity crowd of 9,000 persons arose as the two superstars met for the championship.

**Deadlocked Match**  
The first period was scoreless as both wrestlers remained on their feet. In the start of the second and third periods, both the wrestlers escaped from starting in the down position making the score 1-1 with less than one minute remaining in the match.

At one point, Wilson almost had Smith in a two-point pinning situation, but the Hersey man slid out of the predicament to keep the score tied.

With 10 seconds remaining, and the score still tied at 1-1, Smith tripped up Wilson and earned a take-down for two points and the state championship.

Niebur was undefeated Friday but Saturday was his down-

fall as he dropped the semi-final round to Bob Sutton of Carmel (Mundelein) 4-2 and then to Phil Reed of Hillcrest in the consolation bouts 6-1. In a bout to determine fifth and sixth place, he lost to Mike Bachmann of Lincolnway on a fall in 2:17.

**Unmatched Friday**  
In Friday's matches, Wilson outpointed Tom Perry of Fenton 4-3 in the first round and earned an 8-0 decision over Tony Filippo of Waukegan, taking him into Saturday.

Niebur decided Craig Miesler of Rich Central 6-5 in the first round action and dumped Jerry Vessey of Rock Island on a 9-0 decision.

While Wilson and Niebur shipped through Friday's competition, the remaining three Warriors dropped their first round matches. Jack Schooley (167), a junior, and Craig Stephens (heavyweight) were eliminated by their losses but

Kevin Niebur (120) lost to an opponent who went on to the finals, thus giving Miller an opportunity to wrestle back.

**Drops Consolation**  
Miller was surprised by Bill Hardnett of Proviso East in the first round and fell in 53 seconds. In the consolation bout, he met Jim Sylverne of Maine East and put up a good fight but fell in 4:31 to be eliminated.

Schooley lost his first round match to Dave Dwyer of Rockton 6-3 and Stephens lost 7-1 to Tom Morris of Wheaton North.

Going into Saturday's events, Lincolnway advanced three men to Saturday's rounds, Warriors advanced two and East St. Louis, Roxana, Belleville East and Cahokia each had one.

A capacity crowd of 36,000 attended the two day event in Horton Fieldhouse on Illinois State University campus.

**44 Bike Riders Attend Club Organizing Meet**

"There is plenty of interest here and the Quad-City area will have a 'Big Wheels' bicycle riding club in the very near future," Kent Dunn of the Tri-City Area YMCA staff, promised after the first meeting to organize a cycling club was held Thursday.

A total of 44 bicycling enthusiasts attended the initial session, the Y official said. "Plus the fact that nearly 20 other individuals who were unable to make the meeting called and indicated their interest in such a club," he added.

To further plans for the Y-sponsored cycling program a second meeting will be held at 6:30 p.m., March 8 at the YMCA club room. Interested cyclists may secure additional information by calling Dunn at 876-7200, or 876-7232.

Slide presentations, proposed activities and organizational plans were part of last week's program, spearheaded by Dunn and Mrs. Jean Francis of Granite City, both of whom are

ardent and expert cyclists. Special guests included two members of the Quad-City Area Youth Hostels program, an integral part of cross-country cycling.

Although a tentative minimum age of 14 has been set for club membership, Dunn said that a younger children whose parents ride with them, are accepted into the program.

A beautifully decorated birthday cake on a footed, crystal cake stand was the focal point on the lace covered refreshment table. Floral arrangements and candles in a pair of crystal candelabra and tiny baskets of mints completed the table decor.

### Myers-Walker Nuptials In Candlelight Setting

Emmanuel Baptist Church was the setting for the wedding of Miss Nancy Kay Walker, daughter of Mr. and Mrs. Allen W. Walker, 2161 Dawn Ave., and Richard Franklin Myers, son of Mr. and Mrs. Willard F. Myers, 541 Margaret St., Mitchell.

The couple was united in marriage Saturday evening at seven o'clock, with the Rev. Vernon Covington officiating at the candlelight ceremony.

The church was decorated with two nine-branch, brass candelabra, palms and a large arrangement of white mums and greenery. White bows marked the pews for the families. Serving as candlelighters were Bill Carr and Tim Hooper.

The guests were seated by Ronald Stagner and Tom Colbert, ushers.

Miss Marilyn Stagner, organist, accompanied the soloist, Dawn Bridges as he sang the "Wedding Prayer" and "A Time for Us."

Kenneth Carr was best man serving with the groomsmen, Richard Milles, brother-in-law of the bride.

The bride was given in marriage by her father. She was preceded down the aisle by the maid of honor, Miss Debbie Smith, and the bridesmaid, Cheryl Crews.

Both attendants wore floor length gowns designed with pastel polyester crepe tops and deep colored velvet skirts. The sleeves were long and full.

gathered tightly at the cuff and closed with covered buttons. The bodices were fashioned with high, round necklines and ribbon belts, ending in streamers cascaded the full length of their dresses.

The maid of honor was in harmonizing shades of pink and Miss Crews appeared in blue. Both wore layered tulle headpieces attached to velvet bows in colors to match their gowns, and they carried carnation nosegays in complementary shades.

The bride was lovely in a full length lace gown over nylon taffeta, the skirt flowing into a chapel train edged with scallops of lace. The natural waistline was slightly gathered at either side and a white satin band formed a bow in back.

Seed pearls and beads were embroidered at the neckline and on the bodice and the sheer lace sleeves were slim and long, ending in ruffles at the wrist. The skirt was caught up in the back to create a butterfly effect and a tiered veil of bridal illusion was fastened to a tiny headpiece of white silk roses and pearl-encrusted leaves.

The bridal bouquet was made up of white roses and baby's breath in colonial style with a detachable white orchid at the center, accented with white satin streamers.

Tiny Cara Sue Crews, flower girl, was in a light blue crepe dress, floor length, fashioned identically to that of the adult attendant. She carried a white flower basket, decorated with satin ribbons and lily of the valley, filled with rose petals.

Her escort was Tony Indelicato, the bride's cousin, ringbearer.

The bridegroom, a member of

## Miss Marcia K. Rivett, Harlen Earhart Are Wed

An out-of-town wedding of interest here was that of Miss Marcia Kaye Rivett, a daughter of Mr. and Mrs. Andrew A. Rivett, 9235 Kristin Lane, Fairfax, Va., and Staff Sergeant Harlen Dale Earhart, U.S. Air Force, a son of Mrs. Russell Borer, 2615 Stratford Lane, and the late Harlen L. Earhart.

The Rev. Kenneth Holmstrom officiated at the 2 o'clock afternoon ceremony on Jan. 15 at the Providence Presbyterian Church in Fairfax, Va.

The bride was lovely in a gown of white satin, embellished with flowers, fashioned along Juliet lines. A Juliet headpiece secured a bouffant veil of bridal illusion and she carried a bouquet of yellow roses and white carnations.

Miss Ann Wilkes was maid of honor and Miss Karen L. Rivett, a sister of the bride, was bridesmaid. They wore long emerald green velvet gowns, with Juliet caps on their hair. Each held a bouquet

identical to that of the bride. Michael A. Rivett, a brother of the bride, was best man. Robert Chabot and David Cooper served as ushers.

The reception was held at the Holiday Inn in Fairfax. The bride, a graduate of the W. T. Woodson High School and Washington School for Secretaries, is employed as a secretary with the federal government.

The bridegroom, a graduate of Granite City High School, attended Southern Illinois University prior to entering the service. He is stationed in the U.S. Air Force Clinic at the Pentagon in Washington D.C.

The couple is residing at 1703 26th St., Apt. 5, in Arlington, Va. They plan to return to this area shortly and will live on campus at SIU where the groom will continue his studies in the medical field.

Among the out-of-town guests at the wedding were the groom's mother, Mrs. Borer, his sister, Mrs. Dianne Boyer of West Frankfort, Ill., and the bride's grandmother, Mrs. Herbert Johantgen of Florida.

Plans were made for a rummage sale at the church on April 29. Mrs. Ruth Seymour will be in charge of publicity and Mrs. Ida Mason will be in charge of arrangements.

Circle members displayed hand-made items for consideration by the group, which will be responsible for a booth at a November bazaar.

### Area Should Make Sure That Last Week's Tragic Death Is the Final Drug Fatality

Long before the tragic death of 19-year-old Danny Creek, it was clear that drug abuse existed in the Quad-Cities (along with nearly every other community in Illinois).

But the waste of the adult years of his life, and all the potential they held, has shocked and saddened local residents—and given them deeper awareness of the shattering young nature of the drug problem.

As our article related, "Young people can't know their future. But a chilling glimpse of what can befall those who experiment with drugs was, provided by a tragedy in Granite City."

Recognizing the impact that the news of his death could have on readers of all ages, his family authorized publication of the photograph showing him as he was found—"asleep" on the living room carpet of an apartment on East 23rd Street.

We join them in the hope that his passing will be the last drug-related fatality.

When we learned of the Feb. 23 occurrence in which two young men were found unconscious, with one later pronounced dead, our thoughts went back to a talk to the Madison Rotary Club several years ago by Dennis Nicholas of the Madison County sheriff's staff.

He and other law enforcement officers were in the process of learning all they could about the new menace. And he had become convinced that the drug challenge was too complex to be fully resolved if young people insisted on gambling with their health and lives.

His valid point was that so many everyday substances could be converted into drugs that it was impossible to ban all the possible hazards and then successfully enforce the ban.

In testimony Feb. 25 at a hearing of the National Commission on Marijuana and Drug Abuse, Myler J. Ambrose, special assistant attorney general for the new U. S. Office of Drug Abuse Law Enforcement, took a similar stand. There is no actual way to shut off all harmful drugs at their source, he maintained.

If these local and county authorities are right, it would seem that the best hope of combating drug abuse and addiction is the realization among prospective users that it is a "bad scene."

Once students and other young people dedicate themselves to stamping out the drug evil, it will cease to exist in anything like its present dimensions.

The youth who survived last week's episode had been charged in an Illinois Bureau of Investigation drug raid in Granite City Oct. 1. The case later was overturned by a court decision, and the scope of FBI activity has been

much more limited in recent weeks and months. Other enforcement officers are continuing their intense interest in the subject. It is unfortunate that the trend of judicial rulings has left them less basis on which to take action.

It may be true that an individual cannot be "saved from himself" if he is determined to act contrary to his own interests. But, especially where the immature are involved, the courts have not served the true friends in making it easier to get away with drug experimentation.

For Danny Creek, where prevention failed, there can be no cure in this world. It is a harsh lesson, made even sadder by the knowledge that such deaths are needless.

### City-Town Sewer Cooperation Is Revived

Construction of additional sanitary sewers is important to the Chouteau-Memphis-Venice Townships area, and Granite City is under orders to upgrade from primary to secondary sewage treatment. For many months, it appeared that these circumstances would lead to a harmonious, economical combining of projects.

February proved to be a month in which a full turnaround took place. On Feb. 3, the Press-Record disclosed that the townships, in implementing Madison County program, were considering connecting not to Granite City but to the East Side Levee and Sanitary District's Landdowne sewage treatment plant near National City.

Some Mitchell area residents balked at this change and blamed Chouteau Supervisor Sparks; they fought him in the County Board primary election and he lost by a close margin to a South Kosciusko man.

In the meantime, consulting engineers for Granite City's treatment program were instructed to mark time in planning the interceptor lines necessary to link township sewers to the Granite City system.

Later in the month, a second look was taken and interceptors were restored to the Granite City program.

Then, announcement that the Miles Laboratories corn milling plant will close March 31 sent the planners back to their drawing boards. Since the Miles plant provides about half of the present treatment volume, it may be that the scope of secondary treatment will have to be revised substantially.

If the overcost can be reduced, and if it is unnecessary to connect with a treatment plant in another county, there may be considerable public backing for city-township sewer cooperation. As again was demonstrated in the Mitchell balloting Feb. 8, Quad-Cityans would rather not deal with the present bi-county levee district and its numerous governing and administrative difficulties.

### Fast-Rising Enthusiasm for Downtown Mall

Enthusiasm is building as the downtown Granite City mall hearing at 7:30 p.m. tomorrow in the third floor City Hall courtroom, it is planned to proceed with a special assessment program and 19th Street mall during the spring.

It is highly encouraging that the plan has a solid base of support among business, downtown property owners, municipal officials and the public. The mall is certain to generate increased activity, which will benefit all parties and provide increased governmental revenue.

With ample planning already carried out, it is essential that the existing momentum be utilized and that the project be made a reality this year.

"In the past ten years, we have discovered an enzyme deficiency (alpha antitrypsin) in the blood which is congenitally inherited in origin and relates to a small but significant percentage of all cases of emphysema.

"Perhaps all emphysema is due to this form of deficiency, and it will not become apparent until we discover other enzyme deficiencies in patients which are similarly responsible for their smoke or not. Chronic bronchitis also is not a disease uniquely associated with cigarette smoking."

President Kornegay's main point is that the U. S. Department of Health, Education and Welfare and regulatory agencies "have made the science of the cigarette question fit the predetermined policies which the public is going to have the best popular reaction."

"It's obvious that Congress has been very far from handling with the issue in making its policies fit the science."

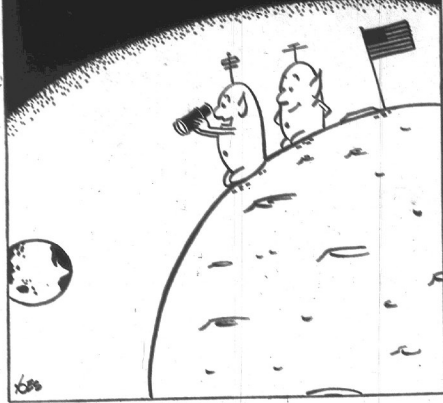

"If the agencies are wrong in their judgment, it can be more damaging to science and the public than the claimed effects of smoking."

"If a scientific question can be decided by political edict, it becomes unprofitable to search for actual, rather than 'official,' facts. If you can find a scapegoat, you can stop looking for the truth."

This costly process has occurred, Dr. James A. Shannon, former director of the National Institutes of Health, said.

"In the area of bronchitis and emphysema, we are inadequately understanding the nebulous role between the statistical associations of cigarette smoking and

### 1972 an Unpredictable Election Year But Sen. Muskie Probably Will Garner 70% of Party's Primary Votes

By KEN WATSON

Copley News Service

Springfield—Statehouse observers refuse to get excited about the Illinois campaign of former U. S. Senator Eugene McCarthy of Minnesota.

He is not expected to make much of a showing in the March 21 presidential primary. As far as professional politicians are concerned, Illinois is pretty well wrapped up for front-running presidential hopeful, Sen. Edmund S. Muskie of Maine.

The feeling beneath the Capitol Dome is that Muskie, strongly backed by Illinois Sen. Adlai E. Stevenson III and looked on with favor by Chicago Mayor Richard J. Daley, should roll up at least 70% of the Democratic primary vote and perhaps even 80%.

The Illinois primary is attracting some major national attention, since it offers a simple head-and-head confrontation between Muskie and McCarthy.

U. S. Senator George McGovern of South Dakota has slates of convention delegates entered in various districts but is not a candidate in the direct primary.

Statehouse Democrats, who like their colleagues in Chicago—are much more conservative than the average Democrat in other

states, doubt that McCarthy's free-wheeling liberalism will attract many primary voters.

Muskie sits well with Illinois Democrats because he is rated as a middle-of-the-road moderate, with a slight leaning toward Democratic liberalism. But his liberalism has much more in common with that of Stevenson or even former President Harry S. Truman than it does with a McCarthy or McGovern.

Statehouse Democrats, with their eyes on the governorship and secretary of state's office, both rich in patronage, want a moderate candidate for President.

Their main reason is a belief that only a moderate can be trusted to carry Illinois against Republican President Richard M. Nixon. They concede, at least privately, that Muskie could accomplish what Nixon cannot carry the state himself.

A McCarthy at the top of the Democratic national ticket would constitute about the biggest political calamity possible.

as far as Democratic regulars in Illinois are concerned. So it can be expected that the rank and file will be doing what they can on primary election day to roll up a big plurality for Muskie and swamp McCarthy out of the presidential picture altogether.

Should McCarthy pull one of his big surprises and make a good showing in Illinois, he might well wreck Muskie's bid for the nomination.

But not many on the Springfield political front think this will happen. McCarthy may score well in college communities, they concede, but the college voting population is relatively small in this state and there is no discernible enthusiasm for McCarthy elsewhere.

One factor helping McCarthy might be the independent candidacy for governor by Dan Walker.

Walker has stayed out of the presidential situation, but Democrats who mark him as a protest against Daley and the regular party organization might carry this sentiment up the ballot and also vote for McCarthy.

This is what chiefly worries Statehouse Democrats in this unpredictable election year of 1972.

### 50 Years Ago Commission Government Proposed

FEBRUARY 25, 1922

covering what it is that really causes cancer. "As he sees it, only one out of 1,000 cigarette smokers gets cancer in any year. To him, that means that the 1,300 smokers who don't get cancer have something different in their genetic structure."

"We think government policy must foster scientific understanding of the causes of human disease, and not replace objective research with official dogma."

He adds, "We do not suggest that government should not provide information to the public about smoking and health. It should, if it sticks to the facts."

"A different question is whether it should attempt to control the smoking behavior of individuals."

"Behavior control is the current and stated mission of the so-called National Clearinghouse for Smoking and Health."

"The Surgeon General says frankly he wants to ban smoking in public. Not because it would be effective—as he must know it would not be—but because it would help discredit the social acceptability of smoking."

"The application of such thinking to cigarettes is, in essence, will government control of behavior be as easily accepted in other areas of American life? More importantly, should this be the role of the government?"

### State Status--Candidate May Face Pay Cut

By JERRY OWENS  
Copley News Service  
Springfield—Dr. John Mathis of Peoria, who is challenging Gov. Richard B. Ogilvie in the Republican governor primary, will have to take a substantial pay cut if he is nominated and elected.

What his statewide campaign manager, Mildred Bury of East Peoria, says, "Og, will be have to take a pay cut!" she exclaims. "The only way he can lose is by winning. Why, his wife threatens to ask for a recusal if he wins."

It's not hard to believe that a successful medical doctor can make well more than the \$45,000 a year the governor is paid. And Mathis apparently is successful, for he heads a Peoria clinic in which he and three other doctors work.

Miss Bury is convinced that Mrs. Mathis will just be forced to ask for a recusal.

"I'm convinced he's going to win," Miss Bury says with much optimism. "We're going to have a lot of support around the state."

"We're not spending that much money, though, because we have considerable volunteer support. We may spend—and only maybe—\$10,000."

She says of the conservative Mathis: "He is such a tremendous candidate, a real good Republican and such a respected person. He's honest, and that's what the people are looking for—someone they can believe in."

She goes on, "People are disgusted about taxes and about being told one thing by Gov. Ogilvie and later getting the opposite."

"He has put so many people on the payroll, and yet every time they turn around they tell us the state is broke, that there's not enough money to run the schools, and so on. I think this is what is bothering the people."

"Dr. Mathis is not a politician. But for a doctor, he has done a lot of things for candidates in the Republican party over the years."

She has taken the time to go to dinners and banquets, and things like that are unusual for a doctor."

Mathis, conservative fiscally, promises if elected to oppose tax increases and bonded indebtedness, and to keep salaries of payrollers and lawmakers down.

Mathis has an attractive campaign headquarters at 4920 A Prospect St., in Peoria Heights. From there, a multitude of unpaid, volunteer workers base their campaign activities.

Miss Bury has been employed at the Caterpillar Tractor Co. in Peoria for 30 years, but she recently took a leave of absence to work full-time in the Mathis campaign. At Caterpillar, she did processing work in manufacturing.

Miss Bury says she has been active in Republican politics for many years. She supported Richard Nixon for president in 1960 and 1968, backed Barry Goldwater in 1964 and plans to be for Nixon again this year.

She was Peoria-area manager for John Kirby's campaign for state auditor in 1964, supported John Altier in the 1968 GOP governor primary and, after Altier lost, tolled for Ogilvie in the fall campaign.

She says there are no paid workers on the campaign staff—strictly volunteers donating their services.

One volunteer—whose name appears on campaign stationery for Mathis—is a prominent Peoria attorney, William Rutherford.

Yes, it's the same Bill Rutherford who contributed heavily to Ogilvie's campaign four years ago, both in money and leg work.

Rutherford also is the idealistic conservationist who had an irreparable falling-out with Ogilvie about two years ago.

### Government Fostering Scientific Understanding or Official Dogma?

Smoking is bad for you, so let's discourage it and then ban it right?

That kind of oversimplification is a threat to not one but five freedoms. It is contrary to the Horace R. Kornegay, president of The Tobacco Institute.

He spoke at a press briefing we attended Thursday and relayed some of his thoughts as an additional viewpoint—his, not ours—that may be of interest.

Kornegay, a former four-term Congressman from North Carolina, noted that "about two out of five adults today, or about 40 million Americans, smoke cigarettes—and they've been given a great deal of information about the health implications of this habit."

The tobacco industry decided 18 years ago to respond with a commitment to research—including a \$3 million grant to Washington University in St. Louis, on March 11, 1971—and the industry has become the

leading source of financial support for scientific research relating to smoking and health questions.

"Public policy decisions about smoking have been made by governments at every level. We think it's time to give a clear statement of our views and show the 'other side' of this controversy."

"The facts convince us, not that our product is above scientific suspicion, not that it has been scientifically examined, but simply that it is in every sense still on trial."

He discussed in detail a Feb. 8, 1970, announcement by the American Cancer Society that scientists had produced lung cancer in 12 smoking dogs. He said, "The findings were distorted, he said. And it was later admitted that similar results were found in a similar percentage of dogs which had not been exposed to cigarette smoke," Kornegay added.

"If we put together all the inconsistencies, the long delay in publication, the obvious re-

## Ruling to Restrict Tax Deed Issuance

An opinion by Attorney General William J. Scott on Thursday has the effect of restricting the ability of purchasers of delinquent taxes to obtain title to real estate.

State's Attorney Thomas P. Carmody of Macoupin County, who requested the opinion, was told by Scott that so-called scavenger transactions are controlled by a 1970 amendment. The amendment reduced to two years, after the date of the sale, the period during which a buyer can extend the time of redemption, if necessary, to complete arrangements to obtain a tax deed.

Carmody asked whether the two-year limitation would apply to persons who purchased delinquent taxes prior to the 1970 amendment.

The Attorney General replied that the amendment was retrospective and applied to purchases prior to the amendment.

The reduced time for redemption in some cases would make it more difficult for the tax buyer to get a valid tax deed to the real estate.

## Pontoon Board Opposed In Paying Hospital Bill

Decision by the Pontoon Beach Village Board Thursday night to pay a policeman's recent hospital bill from the village general fund brought a storm of protest from the audience.

Dr. Dean Rochester, trustee, told approximately 30 persons at the meeting, "We thought this man was covered under the police department's insurance program and found he was not, because of a technicality. We feel a moral obligation to pay his bill."

The bill is from St. Elizabeth Hospital for \$440 incurred during the recent illness of Lieutenant Jimmie D. Smith, one of the department's full-time policemen.

## Moral Obligation

Someone from the audience asked if the board had a moral obligation to pay the bill, why don't you pay it out of your own pocket and not from public tax funds?

The controversy followed the approval by the board of bills totaling \$1,538, including a \$440 bill for the policeman's hospital bill. The only trustee who voted against paying the bills was John Cole, who explained that he simply had not had an opportunity to study them and did not feel he should vote for them. Cole either has obtained the bills or the board will at the last two board meetings.

## Approve Annexation

The board also accepted a petition to annex the property of Mr. and Mrs. Steward Couch, 401 Pontoon Road, to the village. Dr. Rochester proposed an ordinance accepting them into the village. The rules were suspended.

## New Support of Illinois Airport Followed Long Study by Downtown St. Louis Board

At a meeting last week the board of directors of Downtown St. Louis, Inc., voted to reaffirm the organization's position in favor of an Illinois location for a second regional airport and to endorse immediate improvement of Lambert St. Louis International Airport to develop its full potential for continuing use.

Two years ago, the board of directors, Inc., adopted "goals for the 70s" which included the following resolution: "A second major airport to serve metropolitan St. Louis should be developed in Illinois."

Since that time, further developments including the McDonnell Douglas report on Lambert St. Louis International Airport and the prospect of a new airport in Missouri — have caused Downtown, Inc. to re-open its consideration of the question, the organization said in a prepared statement.

"Downtown St. Louis feels an obligation as a civic organization to take and make public a responsible, current position on the airport question which represents the best interest of the whole metropolitan region."

"To this end, the board has devoted five meetings in recent months to consideration of all points of view surrounding this important matter," the statement related.

"Rather than delegate examination of this question to a

committee, the entire board of directors has heard presentations on the potential of Lambert Field as well as on the merits of new airports in Missouri and in Illinois.

"Most recently, the board invited John A. Chalmers, administrator of the Federal Aviation Administration, to come to St. Louis to explain the FAA's requirements and expectations for a new airport in the St. Louis area," the statement said.

"After thorough examination of all aspects of the airport question, it is the considered opinion and conclusion of the board that there is need for a new airport to serve the St. Louis metropolitan area and that this airport should be developed in Illinois."

"Downtown, Inc., recommends also that Lambert St. Louis International Airport be improved as soon as possible to develop its full potential for its continuing use."

"Downtown St. Louis believes that the best interests of the future of Lambert Field will be served by the location of the new airport at the Columbia-Waterloo site."

"According to the FAA Administrator, a new airport at either of the suggested Missouri sites would seriously impair the usefulness of Lambert Field because of the safety requirements represented by

airspace reservations. "The members of the board of directors of Downtown St. Louis, Inc., — many from three-fourths of whom are residents of St. Louis County — believe that the location of a new airport in the city will be served by development of a second airport at Columbia-Waterloo."

"Downtown, Inc., also believes that the Illinois location is compatible with good regional planning for the metropolitan area as a whole."

"The administrator of the FAA has said that the principal means of transportation between the two airports should be a rapid transit system," the statement continued.

"Rapid transit planning for the St. Louis metropolitan area calls for a northwest line to connect Lambert Field with downtown. The state of Illinois has committed \$106 million for construction of a rapid transit system of transportation between the two airports should be a rapid transit system," the statement continued.

"The FAA administrator has recommended development of a center city terminal to serve both airports. The logical site for this terminal is in downtown St. Louis," the statement concluded.

### Madison Soil District To Distribute Catfish

The Madison County Soil and Water Conservation District is sponsoring the sale of channel catfish to anyone who desires to purchase them for their ponds. The fish are pond-grown channel catfish 6" to 9" long, 1 1/2" to 2" high and 10" to 15" fish will cost 40¢ each.

They will be delivered to the USDA Building parking lot south of the intersection of Routes 143 and 158 on the northwest edge of Edwardsville. Delivery will be on the last Thursday of March and early in April.

Fish must be reserved in advance. A small down payment is required. Reservations must be made before March 24th at 656-4718.
